Parks and Trails Survey Report

Parks Manager Jeff Watling and Bill Webster of PERC, Inc. gave a slide presentation on the results of the Park and Recreation Community Assessment Survey. This survey was mailed to the residents of Sammamish several months ago. They highlighted the issues that were most important to residents, according to the survey. Complete survey results are available at City Hall.

King County DDES Pending Development Projects

Community Development Director Ray Gilmore summarized the process of vested King County permit applications and explained the issues now facing the City as a result of these vested projects. Several possible solutions were presented to deal with these issues including returning these projects to King County to continue the permitting process and providing for a mediation service for controversial projects. A sample ordinance on land use mediation was presented.

Mayor Barry closed the Study Session at 8:42 p.m.
